education

Pier Program at Apple Developer Academy @Unina Federico II (2026)

Focus su scaling di prodotti ed ecosistema Apple (HIG). Coordinato in Scrum su Jira, ho progettato flussi complessi su Figma e condotto User e Usability Testing prima della produzione.

Apple Developer Academy @Unina Federico II (2025)

Designed native apps within Agile teams. Managed the full UX/UI lifecycle: from user research to wireframes and high-fidelity prototypes in Figma, validated designs through usability testing, and aligned them with SwiftUI layouts in Xcode.

UX/UI Design Course (2023)

dot Academy

Specialized in User-Centered Design, including user personas and customer journey mapping. Designed end-to-end wireframes and interactive prototypes in Figma, applying heuristic analysis to identify and eliminate friction points across user flows.

Web design & UX/UI Course (2022)

ILAS Academy Napoli

Bachelor Degree in New Media Art (2017 – 2021)

Accademia di Belle Arti di Napoli

Studied visual and multimedia communication, developing creative problem-solving skills and a collaborative mindset through complex interactive projects.

work experience

Apple Developer Academy Pier Program

game & ux/ui designer | 2025 - 2026

Designed the UX/UI, visual identity, and game mechanics for Orby's Adventure, an educational iPadOS game for primary school students. Conducted user research, usability testing, and co-design sessions in India, involving both end users and stakeholders throughout the design process, and iterating on the experience within a Scrum environment.

Future Food

facilitator & mentor – biodiversity hackathon, @innovation village naples | 2025

Served as a mentor during a two-day biodiversity hackathon, guiding multiple teams through problem definition, idea generation and selection, and the development of concepts into prototypes and final presentations. Facilitated structured design-thinking sessions and provided iterative feedback on UX, solution coherence, and feasibility.

Growing Greener

digital designer & event collaborator | 2023 - in corso

Responsible for UX/UI support in designing and improving the community's digital touchpoints, with a focus on clarity, visual consistency, and user experience. Actively managed and facilitated events and initiatives, contributing to community growth and engagement through coordination, content creation, and direct interaction with participants.

3f&Edin

graphic / web designer | 2022-2023

Designed and produced graphic content for web, social media, and promotional materials for Noisy Naples Fest, adapting visuals across different formats and channels. Collaborated directly with music artists to create advertising assets and promotional materials. Developed analytical presentations, informational reports, and video content to support the festival's communication.
